25X1 reported briefly on the recruiters' meeting aton 3 May at NPIC. After Mr. Lundahl's 25X1 tended by him and briefing, they were first to meet with the recruiters and outlined for them the basic qualifications and type of person PAD is interested in hiring. A list was given to the recruiters of colleges and universities to visit and a list of names of PAD personnel who could accompany the recruiters in the field. NPIC will begin advertising in some of the trade magazines. 25X1 mentioned a Center training program which is still in the planning stage. 25X1 asked the chiefs to please write their reasons for saying "no interest" on applicant files being routed for their review. Branch chiefs are also to date their comments.
